I bought a new swamp cooler from AAA, They were Great. Verery professional. Very careful while removing the old one from the roof, and replacing it with the new one. The best part that really made my day is. I told the person on the roof who ever was up there had to clean my skylight. I was kidding of course. But while he was waiting for parts from his co-worker ong the ground, He cleaned my skylight. Thank You AAA Furnace, I will tell everyone I know about you're very professional service.

I would strongly not recommend using this company. They installed a new system and promised the work to be completed in a day. It took 2 days and they left a mess. My calls to complain were not returned.
